20 oz ERGO Heavy Duty Claw Hammer

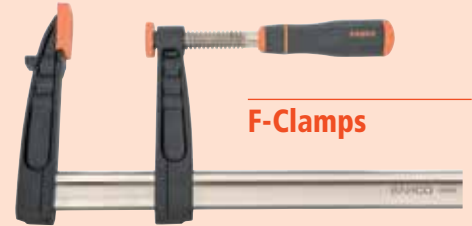

P/N 529-20-L

\$29.36 Ex. GST
\$32.30 Inc. GST

The head and the shaft consist of one piece which ensures the durability and strength of the hammer. The special shaft design minimizes the vibrations to avoid injuries. The long and curvy rubber grip provides a variety of grip positions, like a two handed grip or a precision grip. The ERGO 20oz hammer has an optimized balance which keeps the wrist in the best position to avoid muscle stress and gives you an effective striking performance like no other hammer does.

F-Clamps

F Clamp with one fixed and one sliding bracket Zinc plated screw with special, plastic covered ball swivel foot for secure and easy clamping of odd shapes. New improved handles aligned with the BahcoFit screwdriver handle – allowing for a perfect grip.

RICHMOND
WHEEL & CASTOR CO

**YOUR NUMBER ONE
CHOICE FOR WHEELS,
CASTORS, AND MORE**

COMPANY PROFILE

Richmond Wheel and Castor Co is a family owned business and for 60 years we have been designing, manufacturing, and supplying industrial wheels, rollers, castors, and materials handling equipment. We have multiple branches across Australia and New Zealand.

1954

Frank Winslow expanded his Steel Merchant business by opening a storage and processing facility in Cremorne Street Richmond.

1958

Frank opened an engineering business called Richmond Engineering to add value to the steel products and produce beams, columns and lintels for the construction industry.

1992

A snapshot of the factory on any day in 1992 would have shown a work shop full of C.N.C machines, power presses, injection moulding machines, fabrication equipment and our first polyurethane processing plant. In fact, much of the gear needed to make our wheels and castors.

Richmond added real depth to the product range by developing relations with suppliers in the U.K., Italy, Taiwan, Thailand and early "toe in the water" experiences in China.

1960

Frank purchased a materials handling equipment manufacturer called Carter Engineering who operated out of a rental factory in Notting Hill Victoria. Carter made pallet jacks, stackers, stillage trucks and of course the wheels and castors needed for the equipment.

1998

Richmond opened operations in Sydney and Auckland to better service our customers. We have continued this process over the years with our latest stores in Darwin and South Sydney opening in 2016.

1963

Frank purchased a property on Clayton Road in Clayton, Victoria, which was the site of an old cast iron foundry. It was refurbished into a materials handling equipment factory. Much expanded, it is still the headquarters of Richmond today.

2010

The third generation, Breon and Glen, join Richmond. Currently whilst the core of Richmond remains its engineering experience and expertise, our product range has expanded to over 3000 SKUs being offered through our stores and resellers. We have moved over the years from being a component supplier to the manufacturing industry, to being a supplier of high quality products and solutions.

2018

In October Richmond will celebrate 60 years of service. 100% Australian, thriving, still designing and manufacturing some great new products, not just the same as in the past.

1987

Frank retired and his Son Ray Winslow became the CEO. Richmond discontinued manufacturing hydraulic lifting equipment to focus on the rapidly expanding wheel and castor business.
